01 · THE ATTENTION ECONOMY PARADIGM SHIFT

The Market is Moving — And It's Owned Media

Paid ad CAC is breaking brand unit economics. Enterprise brands must escape ad spend by becoming autonomous media engines. YAAS delivers organic audience capture across 70+ channels; Aeos Labs mechanizes the post-production backend to 1,000+ monthly assets with zero headcount drag or brand drift.

1B+	1,000+	70+
MONTHLY ORGANIC VIEWS	VIDEOS / MONTH	BRAND CHANNELS
YAAS Public Network Footprint	Target Fleet Velocity	Zoho · Cleartrip · Zerodha

The Aeos Operating Axiom
"Attention is the only durable moat as technology commoditizes." Automation does not replace the creative engine — it builds the deterministic operating system around it to eliminate repetitive assembly friction.

02 · THE HIDDEN CEILING OF AGENCY PRODUCTION

Production Drag Breakdown

Unguided prompt pipelines suffer high variance and brand drift. Raw LLM video scripts hallucinate client data, violate brand guidelines, and lack deterministic state.

Manual Timeline Assembly	Keyframing captions, typography sync, and clip cutting in Premiere/AE.	50%
Presenter & Talent Friction	Reshoots, human scheduling, and audio drift across 70+ brand channels.	30%
Format QC & Re-renders	Multi-platform safe zones (9:16 vs 16:9), compression glitches, and tagging.	20%

→ Target Shift: 100% of repetitive assembly shifted to Aeos Remotion React Engine
