THE ATTENTION ECONOMY PARADIGM SHIFT

The Market is Moving — And It's Owned Media

Paid ad CAC is breaking brand unit economics. Enterprise brands must escape ad spend by becoming autonomous media engines. YAAS delivers organic audience capture across 70+ channels; Aeos Labs mechanizes the backend from 100 to 1,000+ monthly assets with zero headcount drag or AI slop.

Production Drag Breakdown

90% of AI video pipelines degrade into slop. Unguided LLM prompts hallucinate client stats, drop brand rules, and crash without durable state.

50% **Manual Timeline Assembly**
Keyframing captions, typography sync, and clip cutting in Premiere/After Effects.

30% **Presenter & Talent Friction**
Reshoots, human scheduling, and audio drift across 70+ client channels.

20% **Format QC & Re-renders**
Multi-platform safe zones (9:16 vs 16:9), compression glitches, and tagging.
